British in Face of Determined Resistance Rout Deutons in Drive Against Bourlon Village

CRIMSON BAYONETS TELL OF HAND-TO-HAND FIGHT.

Take Ten Thousand Germans Prisoner in Desperate Drive Carried Out Along Cambrai Front.

[BY ATLANTIC CABLE AND A. P.]

BRITISH ARMY HEADQUARTERS IN FRANCE, Sunday, Nov. 25.—This morning found the line of battle of the weary but determined British troops stretched in a semicircle about Bourlon wood and Bourlon village, which nestles at the northwestern edge of the forest. It was a line which had been established in the face of dogged resistance on the part of Germans who had fallen back step by step, fighting with the fury of desperation.

All day yesterday the opposing forces struggled bitterly at close quarters for the little village from which the British were forced Friday afternoon to take a footing in the rush that took them through Bourlon wood. Nightfall found waves of infantry surging through the streets of the hamlet and among the houses, their crimson bayonets telling the story of the terrible conflict. Gradually the Germans fell back, the British pressing forward with grim persistence which the enemy could not withstand. The battle finally cleared of the major portion of the German troops.

GERMANS ROUTED.

Today some few of the enemy still remained in Bourlon, but the main streets had been cleared and the village surrounded by a strong force of British troops. A little to the southwest another intense struggle was being fought in Mesures village, in which the British had battled their way back to the German line and pushed the Germans out of the southern half. Mesures village, however, was not a German stronghold, as there was no infantry action of importance.

Prisoners continue to arrive at the British camps from the front. Nearly 10,000 have been counted, including 10,000 prisoners.

Bourlon wood and village is one of the most important points the British have secured since the great drive Tuesday. This high ground controls a wide sweep and its occupation holds out the possibility that the Germans eventually will be forced to withdraw northwest. The Bourlon position also overlooks Cambrai, and its capture would be a hard nut to crack because the central part is walled and many machine guns are mounted on the walls.

MOVIES FOR THE ARMY.

Government will Give Exalted Men Training Through Education by Films.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, Nov. 25.—Enthusiasm in the military service of the United States will gain impetus from motion pictures in the near future, according to a message from the War Department received at the Western Department today.

SPECTACULAR FIGHTING.

The fighting over these wooded slopes has been among the most spectacular of the war, for the occupation of the forest was due largely to the war for the surrounding infantry. Iron monitors led the advance to Bourlon wood Friday, and British planes circled at a height of from thirty to fifty feet, carrying out a vigorous warfare with their machine guns and bombs. The fighting was hard fighting, but the advance continued successfully to the northwestern corner of the forest, where the tanks were held up by a strong force of the enemy. British armor, which had been fighting close to the ground, deliberately charged into the enemy infantry, with machine guns pumping a steady stream of bullets into the German ranks. The battle was short and decisive. The tanks, which had been driven back to the wood, the conquest of the wood being completed, and an entering wedge having been driven into the German line.

Almost immediately the Germans delivered a heavy counter-attack on the troops who had penetrated the forest, but after a short engagement forced them to withdraw again to the old German line. Sunday morning the British renewed the attack on the village.

BATTLE IN THE OPEN.

It was a battle in which the British troops glided, for it took them back to the days of other wars when men struggled in the open. The trying period of fighting behind sandbag parapets was temporarily past, and they were at grips with the enemy, where they could employ the bayonet, which they knew so well how to use. The Germans had rushed up reinforcements which they had obtained by taking every available point on their line.

During the battle the British advanced in strength from the north and threw themselves against the British line at the edge of the forest. A sanguinary struggle followed, and the British, unable to withstand the fury of the German attack, withdrew to a great loss of life, withdrew slightly and the Germans gained a footing in the northern edge of the forest. But the British surged forward again. This time dismounted cavalrymen advanced with the infantry and drove the enemy back, re-establishing themselves in the old line.

Little by little the Germans were forced to give ground at the northern edge of the forest. The British moved the blood-stained streets of the hamlet once more. They settled down about the outstanding forest, but they still continued to shoot and fight at one another in the gathering darkness.

GERMAN VAIN ATTACK.

More grim tragedy had been enacted since the German attack on the morning of the 25th. The German

Almost Like Charge

(Continued from First Page.)

were the British line. As they were retreating, they were charged by a German officer with nine men. It happened that among the troops was a little chap who spoke German fluently. He was sent forward with orders to engage the officer in conversation until the rest of the troops could close in with their sabers.

The little emissary fulfilled his mission by engaging the attention of the officer with a cock and bull story to which the German listened because he did not know that the British cavalry was in his hands. He listened a moment too long, however, for the Canadians rushed in and killed the man accompanying him. The German officer was taken prisoner and compelled to conduct the horsemen back to their own lines.

AMERICAN MISSION STUDIES CONDITION.

FINANCIAL AFFAIRS AND TROOP DISCIPLINE ARE CONSIDERED.

[BY ATLANTIC CABLE AND A. P.]

PARIS, Nov. 25.—The Marquis de Chambrun, a member of the French mission to the United States, today told Col. Edward M. House, head of the American mission, that the French army was in a state of financial and disciplinary crisis.

There have been almost continual complaints from the French army, and British army flying as low as thirty feet above the ground. There have been a number of cases of desertion, and the British have been carrying out on such a large scale. Pilots have attacked infantry and gun crews indiscriminately whenever they encountered them, and have inflicted heavy casualties on the enemy with bombs and machine guns.

AIRPLANES BIG FACTOR.

The nature of the fighting can be seen from the fact that the British pilot, whose machine was literally shot to pieces by rifle and machine gun fire, was seen to crash down behind his own lines with ten bullet holes through his clothing. Another young man was yesterday presented himself at headquarters, claiming to have been shot down for the third time within two days. He was delighted over his escape, and immediately applied for another machine so that he might go out again.

An aviator attacked a column of German infantry marching in close formation and hurled two high-power bombs directly among them. The bombs exploded, and the German machine gunners were killed. There were numerous cases of German soldiers being killed by British planes. A large number of artillery crews have been killed either by machine gun fire or by bombs.

REGARD BUTTONS MORE VALUABLE THAN JOBS.

[BY A. P. NIGHT WIRE.]

MINNEAPOLIS (Minn.), Nov. 25.—Between 400 and 500 trainmen of the Twin City Rapid Transit Company in Minneapolis and St. Paul are being urged to join the union, according to a statement made today by the newly organized union.

POOR CHILDREN MUST GO WITHOUT MILK.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Nov. 25.—High prices of milk in New York City, Philadelphia and other cities have curtailed the consumption among the poorer classes until many children under 6 years of age are being given less than a quart of milk a day, according to a statement made today by the Children's Bureau of the Department of Labor.

Red Cross to Aid Japan.

[BY A. P. NIGHT WIRE.]

NEW YORK, Nov. 25.—The American Red Cross will shortly announce its activities in Japan, where work, announcement having been made here today that the organization has accepted an offer to take over St. Luke's International Hospital in Tokyo, in case of need arising for its use by the military or naval forces of the United States.

CANADIAN ARMY HEADQUARTERS IN FRANCE, Nov. 25.—(By Canadian Press, Limited.)

Canada was splendidly represented in the great British advance of November 30 which broke the Hindenburg line and drove the enemy back on Cambrai. For the first time since the German retreat from Bapaume last spring, the Canadian cavalry went into action with their horses. They fought a long time opposite the village of Masnières, for the signal which sent them into action, the "hell for leather" Fort Garry galloped to the attack. They succeeded in crossing the Lezant Canal and penetrated the enemy's country.

What followed equals anything in cavalry exploits in the history of the empire. A single squadron found itself all alone. Raging forward, with the enemy in the rear, they cut off the enemy's retreat. The Fort Garry galloped in section over the crest of a hill, and the enemy's guns. Advancing down the slope, they found themselves facing a battery of four light German field guns. Charging straight for the battery, sabring everything in their way, the officers and men raced to the guns.

In light of troop columns they advanced, coming on so quickly that the enemy had no time to man their guns. One other was cut off and put out of action. The gun-

ANNOUNCE WAR SAVINGS PLAN.

(Continued from First Page.)

California Campaign to Open Early Next Month.

Aim to Increase Production Over Consumption.

Costs Twenty Dollars Per Man During the Winter.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, Nov. 25.—California's drive to increase its savings by \$60,000,000 during the coming twelve months and to lend the amount thus saved to the government through the purchase of war savings certificates and thrift stamps will begin on December 1, it was announced today by John S. Drum, State director of war savings.

Drum, who recently returned from an official trip to the United States, is associated in the management of the campaign, with G. A. Davidson, State director for Southern California by the Secretary of the Treasury.

The object of the war savings plan, as outlined by Mr. Drum, is during the coming winter to increase the current surplus of production over consumption by the amount of \$20 for each man, woman and child in the State. This, he explained, can be accomplished only by saving his life.

President Wilson said in Washington that the government cannot realize its maximum strength unless the idea of what they are doing is eliminated and every resource is developed and utilized to the fullest extent. The President pointed out that this would be manifestly impossible as long as in the State of California, the work was devoted to less urgent uses, as they would be while people continued to demand them.

GET EIGHT-HOUR DAY.

Oil Workers Granted Demand by Patriotic Employers after Mediation Conference.

[BY A. P. DAY WIRE.]

BAKERSFIELD, Nov. 25.—An eight-hour day for oil workers of the 61st and gas workers organization of California, will soon be effective in all fields of the State, the latter December 1, and the former official announcement here today.

The workers, it is said, won practically all of their contentions at the conference with Vernon Z. Reed, Federal mediator, and the operators. At Santa Barbara the latter part of the week. The workers have the new schedule of hours and wages date back to November 1, but the agreement has yet to be ratified by the various local oil and gas workers' unions, which are now in the process of doing so.

WAR HAS REDUCED PETROLEUM OUTPUT.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Nov. 25.—War demands cut down petroleum stocks in the United States to 9,774,000 barrels during the first nine months of this year. The Department of the Interior estimates that there is an increase of 17 per cent consumption, as compared with the same period of 1916.

Over the Top!

TURKEY IS OBJECTIVE OF NEXT CAMP LEWIS DRIVE.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

CAMP LEWIS, TACOMA (Wash.) Nov. 25.—Military police officers today expressed the opinion that a certain element in Seattle is making an effort to discredit Tacoma and the Camp Lewis soldiers, as four men from the anti-union charges of drunkenness. In each case it is alleged by the military police, the liquor was smuggled in from Seattle.

Contracts for buildings to cost \$250,000 were announced at Camp Lewis today. They will be made by a new firm, the Construction Company of Tacoma, which will operate on the per cent basis, and will be the same as the Hurley Mason Company has been doing. One of the new buildings will be a six-story warehouse capable of holding several days' supplies.

Every soldier at Camp Lewis will have his own dinner at an hour that will best suit the convenience of the soldier. The government will furnish the turkey. The trimmings will be bought with company mess funds. Many men will eat dinner in Tacoma and other nearby cities as they will be given leave from Wednesday night to Friday morning, subject to week-end regulations.

Just fifteen years old, with a two-week-old baby to take care of, Mrs. Wallace, who is here as her sister, Mrs. Joe Fusi of Wallace, Idaho, is in Tacoma in an effort to keep her husband, in the Third Hundred and Sixteenth Ammunition Train, exempted from military training.

Mrs. Fusi boarded the first street car in Tacoma in front of the Little Japanese hotel at which she was staying here and rode back and forth the length of the line several times before she was able to make the conductor understand that she wanted to go to her husband. Then she per cent passenger came to her aid and she was taken to the camp. Her husband explained to her that he was in the army and could not go back to Wallace until Germany was defeated.

Three young draft men, who took the examinations for conscription officers before they came to Camp Lewis, received their commissions as second lieutenants in the regular army this morning. They are Henry A. Harkins, Coast Artillery; his brother, D. Harkins, also Coast Artillery; and R. Dinamore, cavalry. The Harkins brothers are from Mineral Park, Cal.

Allied Aid.

(Continued from First Page.)

first seen in force. They were espionage-looking young men. One of these officers was who was responsible talked, and who had stripes earned by gallantry on his horse, said they had just arrived after a hard forced march, with others following.

Soon there others came in view, and for two miles the party passed through endless lines of French. There were squadrons of cavalry in the road and in the near-by fields and long lines of troops with artillery and trucks and supplies. Field kitchens had been set up at one point, and the mid-day meal was being served. The men looked in the best of condition and did not show a trace of fatigue from their long march.

LONG LINES OF BRITISH.

Just beyond here the color turned from blue to khaki, as long lines of the British came into sight. In the lead were the British engineers, followed by long ranks of infantry, cavalry and tanks. These were not needed, but had been temporarily established along the roads, and guards were at hand as the officers went on and came.

Further on, a British general, and his staff, directly mounted, were cantering forward. The British were especially marked by their sleek, well-fed condition, and officers noted how all the brass work of the guns and equipment gleamed with the polish of the British army. The British were especially marked by their sleek, well-fed condition, and officers noted how all the brass work of the guns and equipment gleamed with the polish of the British army.

The men looked hard as mules, despite their steady marches. Both officers and men were eager to hear the British general's words. He was anxious to get forward.

Talks with these men along the road proved an idea of what they had been doing. They had been marching steadily for several days. The British general, who was in the lead, was especially marked by his sleek, well-fed condition, and officers noted how all the brass work of the guns and equipment gleamed with the polish of the British army.

On our left wing the enemy's efforts were directed against the Monte Fortia area. The enemy were crushed promptly, and a deadly and well-organized counter-attack on our part followed. The enemy were crushed promptly, and a deadly and well-organized counter-attack on our part followed.

At our center, where the enemy's pressure was strongest, the Fifty-second Division lived up to its enviable reputation. Enemy columns, which with stubborn fury attacked from the northwest and north in the direction of Monte Casone, Col Del Oro, Monte San Lario and Monte Casone, were repulsed with great losses. UNIVERSAL MILITARY
SERVICE KHAN'S IDEA.

FATHER OF SELECTIVE DRAFT
LAW WILL LEAD NEW FIGHT
IN NEXT CONGRESS.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, Nov. 26.—The passage of a universal military service law would solve the military difficulties of the United States for all time in the opinion of Congressman Julius Kahn, ranking Republican member of the House Military Affairs Committee, who leaves tomorrow for Washington for the session of Congress which begins December 3.

As a farewell statement today Representative Kahn, who favored the selective draft law, said all his energies during the coming session would be directed toward passage of the universal service law. He said he expected the session to be one of the longest in history. Military matters, he said, would be given first consideration.

QUESTIONNAIRES RECEIVED.
(BY A. F. NIGHT WIRE.)
SACRAMENTO, Nov. 26.—A mass of questionnaires and other literature bearing upon the new selective draft regulations was received today at the office of Adj. Gen. J. J. Borree from Washington. A force of clerks began immediately the work of mailing the documents to the various local and district boards throughout the state for use in putting in operation the plan for classifying the drafted men. The boards will begin distributing the questionnaires December 15.

DISSOLVE PRINT PAPER "TRUST."

Government Officials Agree to
Drop Charges.

Federal Trade Commission
will Fix Prices.

"Solo Contendres" is Pleaded
by Defendants.

(BY A. F. NIGHT WIRE.)
NEW YORK, Nov. 26.—With the

assent of the government, the News Manufacturers' Association, which represents about 85 per cent. of the newspaper production of the United States and Canada, was dissolved today as an unlawful combination in restraint of trade in violation of the Sherman Anti-Trust act.

Under this decree, signed by United States Judge Mayer, and which the defendants' counsel said was accepted by the accused men because of patriotic motives, evidence will be adduced before the Federal Trade Commission with a view to fixing paper prices by the commission.

Following the commission's decision, the price of paper is fixed at 3 cents a pound. This contract, of which the United States Attorney general is the trustee, is understood to be satisfactory to the American Newspaper Publishers' Association, members of which are included in the defendants of paper.

Under the decree, the 3-cent price will prevail until April 1. In the case of some of the individual defendants, and until January 1, in the case of the others, the price finally fixed by the commission will, it is understood, be the price of the war.

Five of the seven individual defendants and all but a few of the corporate defendants accused under the Federal indictment, returned April, entered pleas today of "solo contendres."

The defendants were accused of using a "complete monopolistic management" whereby prices were fixed, the country divided into geographical districts for trade purposes, new mills suppressed to avert competition and propaganda sent to politicians, indicating increased manufacturing costs at a time when, according to the government, it was actually lower than it had been in months.

MAY FIX NEW PRICE.
United States Judge Mayer signed a decree under which the News Manufacturers' Association, whose Executive Committee included five of the seven defendants, was dissolved. This decree, however, does not take away from the defendants the right to co-operate hereafter and April 1, placing facts before the Federal Trade Commission as a basis for the price to be fixed.

It was also stipulated in the decree that nothing therein would prevent the defendants "from entering into and performing a certain contract of even date with the Attorney general of the United States as trustee, made for the purpose of meeting the existing conditions created by the present state of war in the paper industry. This referred to the agreement for fixing the price of the paper by the Federal Trade Commission."

The decree was affirmatively pronounced by the government and was accepted by all seven defendants. Counsel for several of the defendants under indictment stated that the present was not the time for a controversy between industry and the Federal government, as they insisted there had been no violation by the defendants of either the spirit or the letter of the Sherman law.

Edward W. Backus, president of the Minneapolis and Ontario Power Company and the Fort Francis Pulp and Paper Company, did not agree to the 3-cent price up to April 1, but said that the Federal Trade Commission fix the price after January 1.

This agreement is said to be satisfactory to the American Newspaper Publishers' Association. The case was the outcome of the government's prosecution of C. chairman of the Executive Committee of the News Manufacturers' Association; George W. Backus, Jr., and G. H. P. Gould, representing the Executive Committee of the News Print Manufacturers' Association; Alexander Smith, publisher, and Frank C. Sessenbrenner, newspaper manufacturer.

The defendants were returned by the Federal grand jury April 12, and the defendants were cited to appear for trial today. The agreement was part of the plea action. When the criminal case was called, Messrs. Backus, Chahoon and Backus and Sessenbrenner pleaded "solo contendres" on the ground of not desiring, for patriotic reasons, to embarrass the government. Smith, who is in prison doing Red Cross work, would not be reached by his attorney, and the jury will not be discharged until his plea has been entered. Smith pleaded not guilty. Counsel for the government attorneys said that the defendants who pleaded "solo contendres" had been indicted on charges of conspiracy to defraud the government of \$250,000 on Mend, Dodge, Chahoon and

COURT SUSTAINS "HOUR OF SERVICE."

(BY A. F. NIGHT WIRE.)
WASHINGTON, Nov. 26.—Federal court opinions, holding that a definite period of relief given trainmen at terminal points between their arrival and departure on return trips cannot be deducted in estimating their hours of service, were in effect sustained by the Supreme Court today in refusing to review proceedings brought by the Minneapolis and St. Louis Railroad to recover penalties for violating the hours of service act.

The railroad was convicted on nineteen counts and fined \$1900.

GAG GUARDS, ROB VAULT.
(BY A. F. NIGHT WIRE.)
CLEVELAND, Nov. 26.—Three night watchmen were found bound and gagged in the vault of the Hardware Company store early this morning. They had been locked in by four safe blowers, who got about \$5000 and \$10,000 in cash and \$10,000 worth of merchandise.

Phoenix Man Appointed.
(BY A. F. NIGHT WIRE.)
WASHINGTON, Nov. 26.—Harry R. Triggs of Phoenix has been appointed State director of the war savings campaign for Arizona by Secretary McAdoo.

Northcliffe's Brother Honored.
(BY ATLANTIC CABLE AND A. P.)
LONDON, Nov. 26.—The official announcement of the appointment of Baron Rothermere, brother of Viscount Northcliffe, as president of the Air Council, was made tonight.

Mrs. P. O. Stuchell Tells How She Cured Her Son of a Cold.
"When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up his cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been fully proven by many thousands of people. It is pleasant and safe to take. [Advertisement.]

WILL ACT TO END
SARDINE STRIKE.

COAST FISHERMEN IMPERIL
NATIONAL DEFENSE, SAYS
COMMISSIONER.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, Nov. 26.—Immediate action to terminate the strike of sardine fishermen on the California coast south from San Pedro and to fix a "reasonable" price for the raw product, will be taken by the United States food administration for California, it was announced today.

The strike has hampered the operation of canneries in the southern part of the State for the last six weeks, it was said to food administration headquarters. Food Commissioner Ralph Merritt issued this statement concerning regulations for licensing sardine canneries in compliance with the food control bill, simultaneously with the announcement that steps would be taken to end the strike.

"The licensee shall not buy fish knowingly from any person who shall, after this regulation becomes effective, violate the provisions of the act of August 10, 1917, by making any unreasonable rate in selling, handling or dealing in fish."

Food Commissioner Merritt said settlement of the sardine fishermen's strike would be undertaken on the ground that it imperils the national defense by curtailing production needed in the war emergency. The strikers are composed largely of Italians and Japanese, it was reported. They demand \$18 a ton for fish which sold last year for \$10 a ton, it was said. Canning production last year totalled 115,000 cases, and orders placed so far this year are for more than 1,000,000 cases.

CATHOLIC WEST HONORS BISHOP.

Historic Diocese Conferred on Rt. Rev. Cantwell.

Holy Ceremony to Take Place in San Francisco.

Will be Consecrated by Rev. Archbishop Hanna.

(BY DIRECT WIRE—SPECIAL REPORT.)
SAN FRANCISCO, Nov. 26.—The western Catholic hierarchy is turning to San Francisco, where on Wednesday, December 1, the elevation of the Rt. Rev. John J. Cantwell to the bishopric will take place at 10 o'clock a.m. at St. Mary's Cathedral. The ceremony will make Dr. Cantwell the first bishop of the historic diocese of Los Angeles and Monterey, and the first time the impressive ceremony of the elevation of the bishopric will be held in the city. The elevation of the bishopric is a sacred power by a priest of the archdiocese of San Francisco has been witnessed by the archbishop and the elevation of Bishop Montgomery in 1894, by the late Archbishop Gifford.

Final preparations for the consecration are now being made. Bishop-elect Cantwell is here, having recently returned from a tour of the East previous to the assumption of the duties of his see.

Notables to officiate at the ceremony will be the Most Rev. Edward J. Hanna, p. m. metropolitan archbishop of the California diocese. Other members of the Catholic hierarchy who are expected here for the solemn consecration are Archbishop Christ of Portland, Archbishop Gleason of St. Louis, Bishop Thomas Grace of Sacramento, Bishop O'Dea of Seattle and Bishop Glass of Salt Lake City. It had been hoped that Archbishop Ireland of St. Paul, who has been mentioned as a probable candidate for the red hat at this time, would be present at the ceremony, but it is estimated today that he will not be able to make the trip because of his recent illness.

Rev. E. L. Ryan has been appointed vicar-general of the diocese of Los Angeles to succeed Dr. Cantwell. He is one of the ablest and most efficient of the clergy of the diocese and his appointment is a tribute to his ability and his devotion to the church. He has built a personal reputation of efficiency and devotion. He has built a personal reputation of efficiency and devotion.

PLAN METHOD OF DOWNING MIDDLEMAN.

(BY A. E. ROBERTS.)
NEW YORK, Nov. 26.—Methods have been outlined at a meeting here of the delegates of the Co-operative System of the Eastern States for the purpose of a gigantic system to eliminate the middleman, lower the price and simplify the distribution of goods. The plan is to be carried out by the Co-operative System of the Eastern States, which is a non-profit organization. The plan is to be carried out by the Co-operative System of the Eastern States, which is a non-profit organization.

COLLEGE YOUTHS HELD FOR FRANKS.

Students Preparing for Fire to Celebrate Victory Are Arrested.

Eight youthful college students, held with seal and security at their school, last night prepared to celebrate a premature victory over their opponents in a battle to be held on Thursday. The students were arrested by the police on the charge of preparing a disturbance. The students were arrested by the police on the charge of preparing a disturbance.

ORGANIZE NEGRO CROSS CHAPTER.

(LOCAL CORRESPONDENCE.)
PORTERVILLE, Nov. 26.—Negroes of the north colony south of Porterville are endeavoring to do their bit for the cross and through Mrs. C. E. Kiefer, wife of the negro justice of the peace, application was made for authority to organize a chapter of the cross. The chapter is to be organized by Mrs. C. E. Kiefer, wife of the negro justice of the peace.

THIMBER HURT BY MISTLETOE.

Forest Service Asked to Examine Ancient Love Symbol.

School Organizes Radio Operator Classes.

(LOCAL CORRESPONDENCE.)
PORTERVILLE, Nov. 26.—A campaign to "read the home" with turkey was started in the district forty years ago by an English family in connection with their "old-fashioned" celebration of Christmas. The campaign is to be carried out by the Forest Service, although because of the great extent of territory now affected, any means of combating the pest do not appear to be practicable.

RIOT RULES AT MASS MEETING.

Venice Candidates Indulge in Fistic Encounters.

Hard Names Exchanged; All Kinds of Threats Made.

(BY DIRECT WIRE—SPECIAL REPORT.)
VENICE, Nov. 26.—The final mass meeting held here last night in the Central grammar school, at which issues of the recall election were to be discussed, opened in a riot and broke up in a wild riot wherein the contending factions exchanged practically every epithet in the noxious vocabulary of Billingsgate. There were two fistic encounters calling for the intervention of the police and charges and counter-charges reflecting on the honesty, integrity and personal morals of several of the candidates were exchanged.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

must learn not to neglect their health

How Women are Restored to Health

(Spartanburg, S. C.)—"For nine years I suffered from backache, weakness and irregularities so I could hardly do my work. I tried many remedies but found no permanent relief. After taking Lydia E. Pinkham's Vegetable Compound I feel a great change for the better and am now well and strong as I have no trouble in doing my work. I hope every user of Lydia E. Pinkham's Vegetable Compound will get great relief and find it as good as mine."—Mrs. J. D. McLean, 122 Dewey Ave., Spartanburg, S. C.

Don't Trifle With Blood Disorders.

But Get Rid of Them Quickly

Cleanse the System of All Impurities. Watch your blood supply closely, be ever on the alert lest some impurity creep in which will make inroads upon your general health. For upon the condition of your blood depends largely whether or not you are to enjoy that robust and splendid vitality which you are entitled.

NEWSBOYS PROVE SPEEDY BOXERS.

Results at the monthly newsboys' boxing show at the Foresters' Building, Saturday night, were: Kid Utey won the decision over Eddie O'Keefe in a red hot, cleanly-fought bout; Kid Farrell drew with Charlie Russell, in main event, another fast so, game little Kid Chille made a plucky fight against a much larger opponent and defeated Kid Brinkhoff; Kid Enick won from Kid Bucky; "Mex" Martinez beat Kid Macy; Joe Tellerman and Bill Citarun, draw; Kid Tuffy won from Kid Donald. It was one of the best boxing shows yet given by the newsboys.

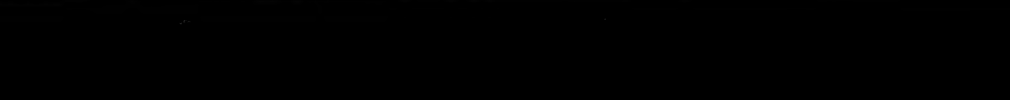

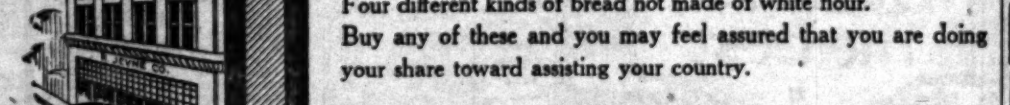

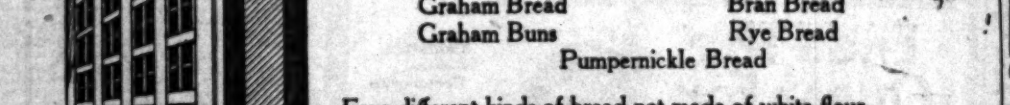

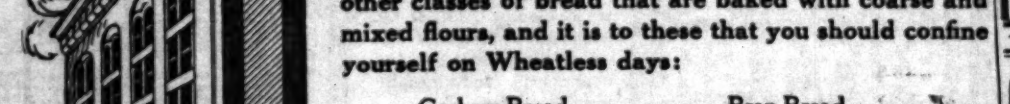

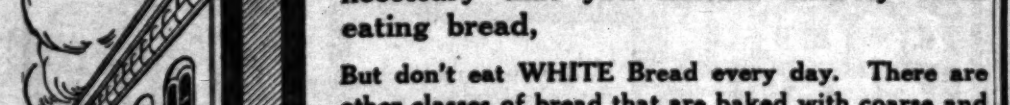

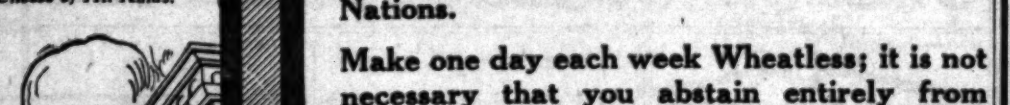

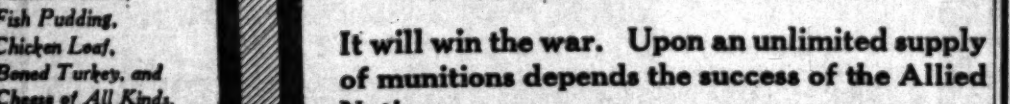

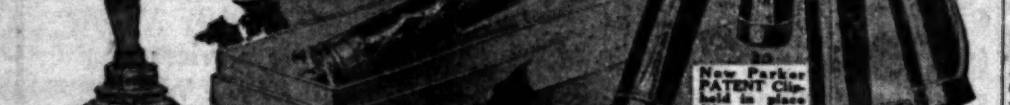

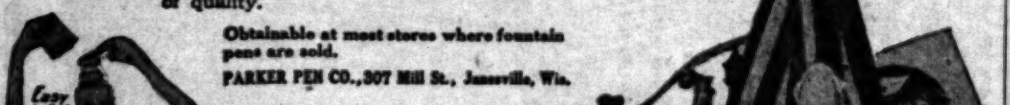

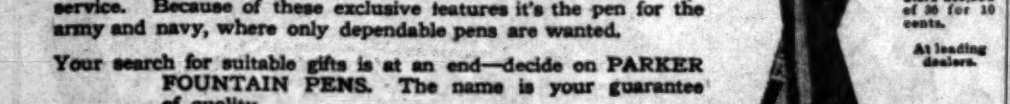

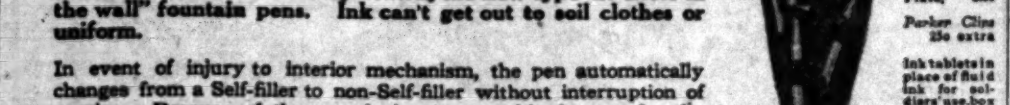

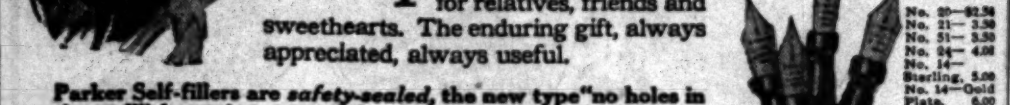

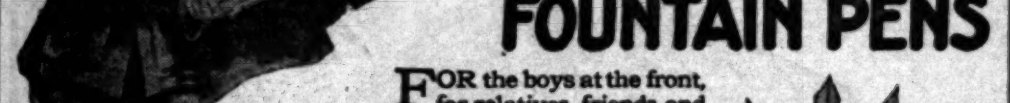

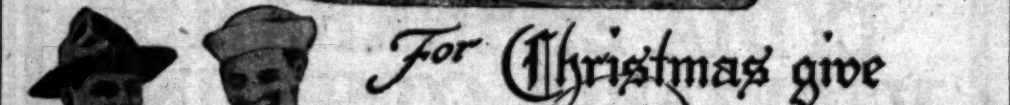

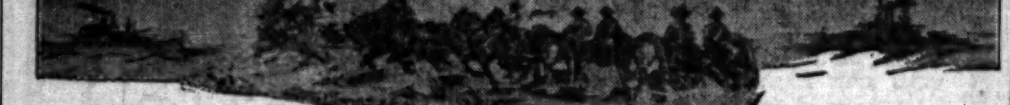

POINTS ON THEIR WAY.
The Whittier College football warriors will leave the Port town this afternoon for Tucson, Ariz., where they go up against the University of Arizona on Thanksgiving Day. According to all the dope, these two aggregations are evenly matched. Coach Van Cleave of the Bears is taking sixteen players with him.

CHEVROLET PROTESTS AGAINST POOL; WINS.

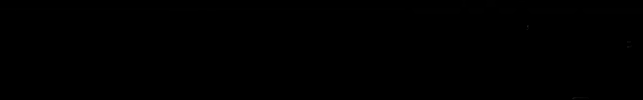

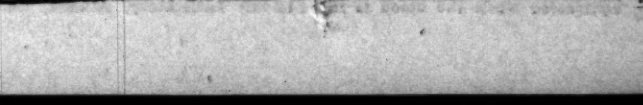

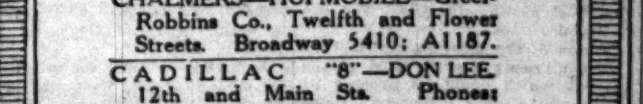

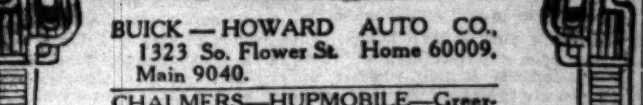

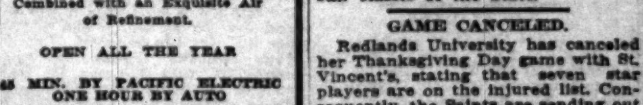

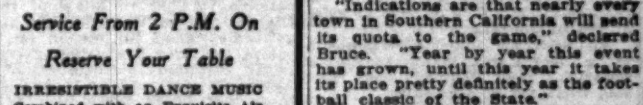

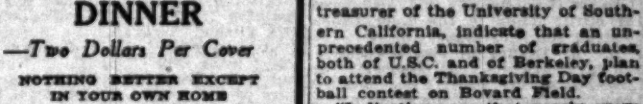

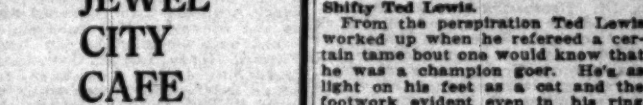

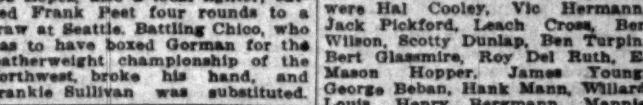

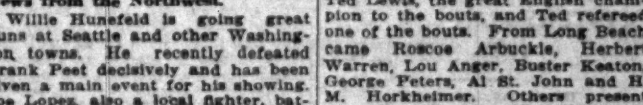

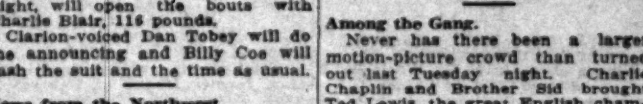

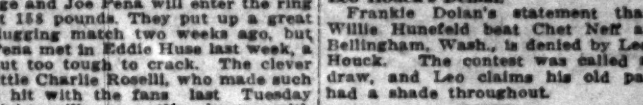

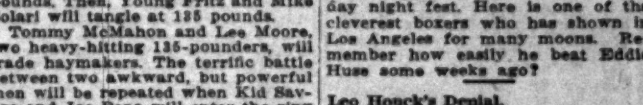

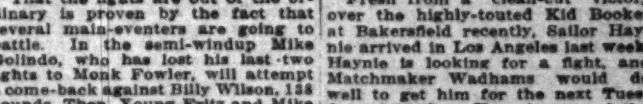

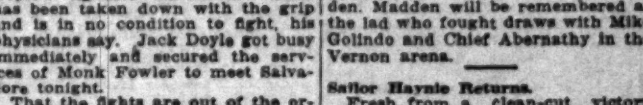

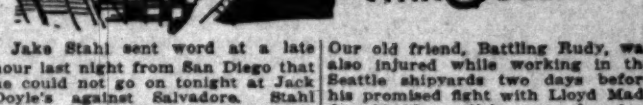

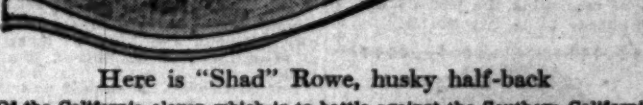

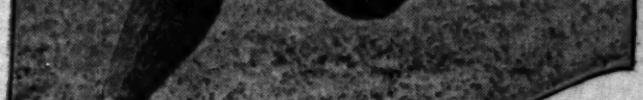

CHARGING that he was the victim of "teamwork" on the part of Eddie Hearne and Tommy Milton, and he had every reason to believe his rivals would use their old tactics against him in the Thanksgiving Day race, Louis Chevrolet last night appealed to the Asot Speedway management to break up the combination. Chevrolet alleges Hearne and Milton pooled against him at both Sheepshead Bay and Providence. Chevrolet won the former event mainly through his superior speed and the excessive width of the track. Milton was victor at Providence, and the 1917 champion asserts it was because of the "team" driving against him. Asot is similar to Providence in construction, with sharp turns and smooth, concrete surface. Because of this and the rumors that have reached him, Chevrolet yesterday announced that if Milton and Hearne were both allowed to start in the front rank of Liberty sweepstakes cars he would withdraw after finishing formal charges with the A.A.A. In order to appease the champion and break up any ring that might exist, the speedway management will place Hearne in the front rank, with Milton as far away from him as possible in the second flight.

SECONDS TO PLAY.
The L.A. High and Manual Arts seconds will settle an old score on the Manual Arts gridiron this afternoon. The L. A. seconds are anxious to wreak vengeance on the Tolleris for defeating the Straphanger varsity so decisively last Friday.

USED IN THE ARMIES AND NAVIES OF THE WORLD

Here is "Shad" Rowe, husky half-back Of the California eleven which is to battle against the Southern California Trojans, on Bovard Field, Thanksgiving Day.

AND ENVIRONS.

For Pine Tree Folk.

Members of the Pine Tree State Association will meet this evening in the Times Assembly Hall. To Have Entertainment.

Stanton Camp, No. 8, Sons of Veterans, will give an entertainment to-morrow evening in the hall at No. 226 1/2 South Main street. Reviews Auxiliary.

The Rosecrans Auxiliary No. 2 was inspected on the 19th inst. by Mrs. Gertrude G. O'Brien, divisional assistant inspector here. There were several visiting delegates from Riverside and Pasadena and divisional officers. The auxiliary initiated six new members.

To Present "Disraeli." The first dramatic production of the year at the University of Southern California will be the drama "Disraeli," by Louis N. Parker, which will be given as the annual junior play by members of the class of 1918, at the Little Theater, the evenings of December 6 and 7. Fraternities plan to make the first night a big affair.

In Good Cause. The Canadian Woman's Club, which corresponds with the American Red Cross, will give a tea and dance, Friday afternoon and evening, in the Times Assembly Hall. Tea will be served from 3:30 o'clock until 5 o'clock and dancing will end at midnight. There will be a program. The proceeds will be used to buy socks for the soldiers.

On Woman's War Work. Dr. James A. Francis will speak on "Woman's War Work" in the interest of the Y.W.C.A. drive for war funds, at a meeting at 3 p.m. today at the home of Mrs. C. Q. Stanton, No. 444 Andrews boulevard. He will speak on the same subject Friday evening at the Garden Court apartments, and Saturday afternoon at the home of Mrs. Charles H. Thompson, No. 100 Fremont place.

War Work Reception. An interesting affair for this week will be the large reception which Hollywood society women will give at the Garden Court apartments next Friday evening at 8 o'clock. Dr. James A. Francis, who has given a year of his time to war work in the various cantonnments, will speak. His subject will be "War Work for Women." He will speak from an intimate knowledge of what is needed in the cantonnments and will tell the women just what they can do for the army and navy men. The list of patronesses include Mesdames A. B. Barrett, E. F. Bonardus, A. B. Ray, Sr., Paul Compton, E. E. Fuller, E. E. Kessler, F. Klump, R. Lane, C. H. Lippincott, M. McClure, R. F. McJohnston, G. E. Morrill, J. Mouton, M. C. Nelson, J. Owen, J. E. Ransford, C. Richmond, J. E. Roberts and Miss H. Russell.

GIVEN INCREASE.

Laborers in City Parks Allowed More Pay on Recommendation of Commissioners.

Laborers employed in the city parks yesterday were given an increase of 25 cents per day, when the Council appropriated \$1571 for that purpose. Councilman Mallard opposed the action upon the ground that the financial condition of the city does not warrant it. He asked that the matter be referred to the Budget Committee.

The Park Commission requested the appropriation. The members said the employees should be treated with the same consideration as men working for other departments all of whom were given slight increases.

SUPERVISORS HAVE DYNAMITE SURPLUS.

The Board of Supervisors has 472 cases of 40 per cent. dynamite on hand and is in a quandary how to reimburse the county for the expense of buying it. As the dynamite is from two to three years old, there were no bidders when it was recently put up for sale. Purchasing Agent Plummer suggested to the Board yesterday that the dynamite be returned to the factory and worked over again. It would then be offered for sale. The black powder will probably be used by the road department. The explosives were originally purchased for the Monolith cement plant, which, under the decision of the Supreme Court, was turned back to the city.

IS MEATLESS DAY AMONG THE CHINESE.

The first Chinese restaurant to go on record as observing meatless day in Los Angeles will be the Man Jen Low Cafe, No. 39 1/2 Marchessault street, which will follow the Hoover programme by not serving meat to patrons today. Instead of the usual dishes of pork, the restaurant, under the direction of Woo Pak Fong, will serve roast duck, roast chicken and the usual Chinese dishes of fish, chop suey and noodles.

CERTIFICATE CALLED PERSONAL RECORD.

DIVORCE SUIT BRINGS OUT STRANGE TRIANGLE OF DOMESTIC AFFAIRS.

A certificate of marriage issued by Pamela Daugherty, a minister of the Church of Occult Thought, bearing the insignia, "Love, Truth and Light," and uniting Ida M. and Alfred Wood in matrimony proceedings yesterday. The court stated that from the evidence of Pamela Daugherty, the certificate was a personal record kept by her and not a record of the spiritualistic association.

Mrs. Bowers brought suit for divorce on the ground of cruelty. She married Mr. Bowers in this city, February 3, 1914, and separated from him February 23, last. She admitted yesterday that she had two previous husbands, "both of whom have committed and have families," she said. She also stated that she lived a year with Mr. Bowers before she was served with notice of the divorce action of her second husband. The court denied her application for alimony.

Just the thing for Christmas Gifts, neatly packed in holiday boxes. These are exclusively designed by us, and very durable.

Boudoir Caps at 50c are suitable gifts.

with all the fixin's. You know what that means at Tom's. The kind of a dinner it is to take Grandma weeks to prepare—crisp, brown turkey, oyster dressing, cranberry sauce, fresh garden vegetables, candied sweet potatoes, celery, dainty salads, plum pudding, mince pie, coffee, raisins and nuts. It makes your mouth water just to think of it.

Make your plans now—eat at Tom's and get a better dinner than you could prepare at home with none of the work, trouble and worry and at half the cost. Tom serves the best turkey to be bought—famous Lancaster beauties that took prizes at the California, Texas and Arizona fairs. And they are cooked Thanksgiving Day, not two days before. Moist, juicy, tender and cooked to a turn.

If you want a dinner that you will remember with pleasure for weeks—eat at Tom's.

Remember the place—Y. M. C. A. Cafeteria, 721 South Hope St.

MEMBERS OF THE ASSOCIATED PRESS.
 The Associated Press is a corporation organized for the purpose of gathering and distributing news and information by wire, radio, and other means, and for the purpose of publishing and distributing newspapers and magazines.

NO EVIDENCE.
 The wife of a local chiropractor, in a suit for divorce, charges her husband with having given her a cold bath against her will. The trouble is that it will be difficult to prove that she didn't need the bathing. Now, if he had prevented her from bathing—

BETTER CUT IT.
 The Germans have been worried in their attacks against Patal's forces at Verdun. If we remember right, the Germans had a little trouble once before somewhere in the vicinity of that city. The sooner they cut out that "Natch Verdun" stuff the better it'll be for them.

WANT A JOB?
 Long Beach is to be congratulated on the government contract for \$1,000,000 worth of cloth. These are busy days at the Long Beach mills and the owners are planning to increase the capacity of their plants. Imperial Valley is ready to do her part with one of the biggest and best cotton crops in years.

HOLY WHATLOCK?
 If you contemplate being married by a justice of the peace instead of a regularly-ordained clergyman you want to see to it that the J. P. is not functioning. Make his name his authority. A couple who neglected this found that the office of the justice had been judiciously declared vacant three days before he united them in holy wedlock and that they had been living together for a week as friends, but not as nuptials.

THAT GRABBER WHEAT.
 It is not clear that the seizure by the United States of 500 bushels of wheat stored on the Columbia River will really add to the food resources of the nation. The wheat was intended to lure wild ducks within reach of sportsmen's guns. Lacking this inducement, the wild ducks will not light on the Columbia River or its affluents, but will continue their flight southward and Portland tables on Thanksgiving Day will be duckless.

DECLARE WAR ON AUSTRIA.
 That we should declare war upon all the allies of Emperor William is the emphatic conviction of probably all the great patriotic organizations of this country—the National Security League is particular. It is no time to theorize as to what Austria may do in the peace line when her subjects here are daily throwing monkey wrenches into our war machine. Even Dr. Dumba, Ambassador and arch-plotter, would cry out to tell us that much if he were disposed to give us misguided peace philanthropists a tip. So could the hundreds of Austrian subjects until a few days ago infesting New York Harbor; so could the Austrian subjects who before yesterday fired on a train in California, thinking it carried troops. And so could the I.W.W.'s arrested in Los Angeles this week and in other quarters. It is alleged, were found letters complaining that they had not received their pay from Germany, Turkey or Bulgaria.

A COURT-MARTIAL NEEDED.
 The ex-Germans and I.W.W. bomb throwers of San Francisco who make the monstrous fall to invoke the recall of Dist. Atty. Pickett because he fulfilled his duty by prosecuting the cowardly murderers who killed ten persons during the preparedness parade last year may go too far in their attempt to tighten the clutch of closed-shop unionism on the throat of San Francisco. It is possible that there may be such an uprising of the loyal and fearless citizens of San Francisco as will sweep inciters to murder into the sea. A Vigilance Committee such as cleaned the Bay City sixty years ago and dangled the corpses of the leaders in crime from the windows of Fort Greenway is a possibility, or, if the courts and the civil authorities shall be paralyzed by the recall so as to prove unable to preserve the property and lives of peaceful and law-abiding citizens from the thugs, there is such a thing as martial law, with its accompanying drumhead court-martial and prompt dispatch of murderers.

AN INVERTED PYRAMID.
 A popular novel, now visiting in Los Angeles, says that the world is an inverted pyramid is bound to topple over, she says that the future civilization of the world will be founded rather on the Bergson philosophy than that of Nietzsche. Doubtless she is more than half right. Certain it is that no civilization can be maintained on the basis of the ideas of Nietzsche and brutality. It is the idea that after the war is over the world will continue to advance, slowly but surely, and that the growth of true progress will depend hereafter, as it has in the past, on the degree in which the human race obeys and applies the principles of Nietzsche and justice. He who imagines that what has nothing to do with what people believe has only to take a look at Germany today to see to what a depth of depravity a false system of philosophy has brought her. All that Germany has given the world in science will endure until better and more exact scientific form and method have been stripped it, but her philosophy cannot survive because it is a negation of the ideal.

WASTEFUL CONSERVATION.
 The Seattle Post-Intelligencer recently stated that there is 9,700,000 water horsepower in the State of Washington requiring Federal consent before it can be utilized. Of the total but 95,000 horse power has been developed, and about 9,600,000 horse power is thus going to waste. "Coal," says the Post-Intelligencer, "is scarce and increasing in value; gas promises to be high; power is needed for irrigation, for industries and for transportation, and yet millions of horse power are permitted to go to waste because statesmen cannot agree as to the conditions under which it may be used." What a frightful waste of a nation's resources! What a criminal waste when every ounce should be made to count!

The Post-Intelligencer is in error in stating that there is a difference between "statesmen" with respect to water-power legislation. The difference is between the representatives of the interest of the people of the United States and a clique of monopolists headed by Gifford Pinchot, who inspired the Shields bill which was before the Senate when Congress adjourned. That bill authorized the Secretary of War to issue permits to develop water powers in navigable streams to "properly qualified applicants who are, in his judgment, best qualified in the public interest to develop the resources."

Wouldn't it be a picnic for Pinchot if the Shields bill should become a law? He would be either a "properly qualified applicant" or a selector of "properly qualified applicants" to obtain his income. Properly qualified applicants would have to invoke the Chinese definition of the science of geometry—"the science of the how much."

It is no impugning of the integrity of the Secretary of War to say that neither he nor any one man living or dead, or who ever will live, is fit to be trusted with the power to select who shall be the lessee for a year of the 46,813,200 water horse power which, according to the Geological Survey statistics, exists in the navigable streams of the United States.

The value of the hydro-electric power which Pinchot desires to place where one can get his itching fingers upon it is indicated by an article in the Washington Post in which it is stated that: "In one year of electric operation on the Rocky Mountain division alone of the Chicago, Milwaukee and St. Paul Railway enough coal has been conserved to send a United States torpedo-boat destroyer on 2383 trips about the British Isles in the search for German submarines. The annual saving on this division is sufficient to send nearly one million of the 46,813,200 water horse power which, according to the Geological Survey statistics, exists in the navigable streams of the United States."

The St. Paul road has saved this year 425,000 barrels of oil and 1,120,000 tons of coal by the use of hydro-electric power. It obtained this energy from water-power plants on non-navigable streams. Only 23 per cent of the total water horse power of the United States is so located with regard to the public domain that it can be used under existing laws without Federal permit. It is in the power of the States in which these powers on non-navigable streams are situated to class them as public utilities and regulate the prices which may be charged consumers for power and light. Pinchot's plan would exempt from State supervision and control water-power plants on navigable streams leased to "qualified applicants."

Away with the Pinchots, and set the horse power at work for the American people and their allies!

SMALL LEAKS.
 A dripping faucet can do double the household's water bill. Ask the complaint clerk in the water department and he will tell you that almost all complaints of excessive bills are caused through leaky plumbing.

Careless use of the gas, forgetting to lower it after the kettle boils, doubling the gas bill. Leaving the heater alight after sufficient water has been heated, forgetting to regulate the oven heat—these are small leaks that multiply the indifferent household's monthly accounts.

Leaving the electric light burning in unused rooms, forgetting the porch light and letting it burn all night; forgetting the electric iron and letting it get red hot, with a consequent scorching of apparel and detriment to the iron—these are items that pile up electric-light bills.

Discarding the crusts, wasting old pieces of bread, tramping sandwiches, burning the toast increases the bread bill by a large percentage.

Letting the cheese dry out, letting the milk go sour, wasting small portions of butter on individual plates, too generous helpings, careless catering, keeping cereals till they become weevils, letting the bacon mould—these small leaks from these causes would often provide two or three more dollars' meals.

Failing to care for clothes, disregarding spots and tears, leaving them mused on chairs instead of strung on hangers, post-poped darns, pins instead of buttons and hooks, are all responsible for increased bills.

Neglected shoe shiners, thoughtless habits of discarding the foot, leaving shoes around where they can get trodden on or amuse the dogs, untidy walking, these failings shorten the life of shoes by many weeks.

Neglected coats in the head, neglected cuts and sores, ignored warning odors, accumulated dirt, neglected tired eyes, leaks for enhanced doctors' bills.

Delayed payment of taxes, telephone bills and other financial liabilities incur the expense of penalties.

Inconsiderate driving, indecision, procrastination, idle chattering, petty argument, cheap whining—these are the thieves of time and patience. Dilatoriness, dallying, superfluous explanations, incorrect watches and clocks, tardy appointments, confused haste—waste, waste, waste of humanity's most precious asset, time.

Disrespect, inefficiency, unreliability, a disregard of trifles, and small leaks make the rich poor and the poor poorer. Take care of the pennies and the dollars will take care of themselves. Respect your own and the other man's minutes that thy days may be lengthened in the land. The miracle of the leaves and fishes can be appreciated every day if men will but harbor their heaven-sent resources; if the crumbs are gathered up food and plenty will be found in abundance. There is no shortage of food, only shortage of surplus. There

With the Advent of Smokeless Day.

are seven full days in the week—some people act as though there were seventy. We can all live on twenty-four hours a day if we can conserve the minutes. We can all be fed if we will conserve the crumbs. Vigilance, industry, hard and continuous labor, orderly minds and orderly lives make for orderly fortunes, orderly health, orderly plenty. The philosopher with time, ability, money or commodities is as reprehensible as the dilatory soldier, as culpable as the enemy traitor. Sins of omission can be as disastrous as sins of commission. And in this hour of the world's trial the waste is a criminal.

REPEL BOARDERS.
 Not so very long ago when the lady of the house wanted to buy a piano or send Mary and John away to school she found it advantageous to assist toward the new financial obligation by taking on a boarder. It seemed the most natural thing in the world. It did not materially affect the social standing of the family nor did it materially add to the household burden. There was the spare bedroom with its welcome of china and crockery, and there was always room for another at the table. Why not a boarder? It might help in other ways. If your cousins and aunts knew that your spare room was taken they would not be coming to visit you a week at a time. Instead of being at the expense of entertaining you would get paid for it. That was something like.

So the room was given the once-over with the duster, and the boarder moved in. Possibly he was a good-natured soul who became as one of the family. He was perfectly content with his ration of fried steak and potatoes and he seldom made a row if his eggs were too hard or his coffee cold. Or possibly he might be a cold and austere person who wanted his chop crisped and insisted on a pile of pudding with his dinner. But in either event he was welcomed because every Saturday night he came to the queen of the bungalow and placed in her hands six large, round dollars as the price of his week's keep and refreshment. The woman counted her extra work as snail and figured her income as about 75 per cent.

But that was some time ago. That was before the Kaiser went mad and the provident Mr. Hoover came on the scene.

In these days the boarder can hardly hope for kindly greetings unless he can come up to the window with about ten or twelve dollars as advance payment. A sunny disposition will not go a very long way in the bleak market. When eggs were two-bits a dozen the household was kindly tolerant of the boarder, even if he happened to be a grouchy; but when chops are 40 cents a pound and eggs a nickel apiece the boarder's room is better than his company. The boarder who was once valued because he was content with liver and bacon has lost some of his glamor since the price of this fodder has gone to about a dollar a plate. When it costs a plunk and a half to have a porthouse conversation with the butler, what show does the poor boarder have?

In these days when the household wishes to economize or retrench it takes the family boarder out to the front porch and pushes him off.

The cry is much the same as it was in the searing days of 1812: "Repel boarders."

CREATIVE GENIUS.
 Creative genius? There is no such thing among men. The only creative power is all the universe of space and time is the original source from which all things and thoughts emanate. Man appropriates, manipulates, compiles, adjusts, reflects, interprets, discovers, invents, but he never creates. The power vouchsafed him by the Almighty man experiments with the substance and forces of life, but no man was ever responsible for the existence of a single thing or thought. Until the materialist and the infidel can offer some logical foundation for their lack of faith in a Supreme Being they will only be laughed at by the worshipping millions for their attempt to prove God's non-existence.

Ordinarily there is but little real truth in a letter of recommendation. And it is no generally understood.

A Queer Ruling.
 It sounds funny, but Gen. Crowder's revised draft rules make first-class men of those who fall support their wives and children.—(New Orleans States.)

WHEN YOU DIE, WHAT COMES NEXT?

A REMARKABLE PARALLEL.

BY MAX PEMBERTON.

Some years ago I was greatly impressed by a story from the West African coast of a man who had seemed to die, but had come to life again. It was told to me by one of the oldest of my friends, and I have every reason to believe that it is true.

A government official, serving in this dangerous locality, was stricken down by malaria and pronounced by the local doctor to be dead. He had really passed into a condition of coma and in this he lay for more than four and twenty hours, while his body awaited burial. He, however, declared that he was quite well aware of what was going on—in fact, he avers that he watched the proceedings in a psychic state.

Particularly he described how the spiritual entity seemed to be separated from the physical, yet not wholly able to escape from it. My friend imagined himself to be a spirit floating in the room and looking down upon his own dead body. He declared that he had a terrible longing to return to his natural condition, but that he suffered intensely from a sensation of cold and isolation very difficult to describe. It was an agony to be there and hear the doctor say that he was dead, while he witnessed the preparations made for his own funeral.

One fact I remember particularly in this narrative. There were in the imagination of the moribund man two bodies or currents of force, which bound the soul to the body. He could not break these bonds, try as he would, and they alone chained him to the body. When he woke up at length his friends regarded him as one risen from the dead. They admitted that they had been on the point of burying him.

Now here is a story which, in a common way, we should dismiss as the dream of a brain perturbed. The man, we can say, had not passed away at all, and in fact is notorious by productive of delirium. There have been many instances of such false diagnosis, and men have been named as dead who have been perfectly well, and in fact are now on the rounds about them. Not only is this the case, but that unromantic physician, the night nurse, may afflict us with sensations which are far more distressing than those of a delirious patient. I have a particular dream of my own in which I believe that I am awake, but I cannot move a limb. It is due, I suppose, to a momentary dislocation of the heart's action, but it permitted me to dimly see my friend's story as merely an unconvincing experience, and to say that he had been the victim of delirium and nothing more.

Now that was more than ten years ago. I had wholly forgotten the circumstances until I received from Mr. P. a copy of a story from the "Great War," and found there in an amazing account of a death-bed scene. The article is reprinted from the "Pictorial," and is the work of Mr. E. E. Fournier d'Albe. This writer claims that he was moved physically to record the death-bed scene of a certain Maj. P., who passed away after a long illness.

When reading it I might be startled by the similarity to the experiences of my friend from West Africa, and rarely have I compared narratives so similar. Take this passage for instance—set down at a moment when Maj. P. was in extremis: "Death seems very close at hand, and there is no apparent sign of consciousness. Directly above the dying man I can see a shadowy form that floats in horizontal position about two feet above the bed. This form is attached to the physical body on the bed by two transparent electric cords. One of them appears to be a fine wire, and the other is a thicker cord, and the people should be made to understand that it is prudent and wise to spare no expense in getting the personnel and the material for the military forces that may be required before we can bring Germany to our own terms."

That force should be declared as equal to five million men without hesitation to the end that there may be no surprise and disappointment when it is discovered, as it may be before we are through with dealing with the enemy, that the existing military project is inadequate.

Thomas Was Right.
 A chauffeur had applied for a position with a well-to-do family which aspired to be considered "top-notch" socially, and was being interviewed by the mistress of the house.

"We call all our servants by their last names," she announced. "What is your last name?"

"You had best call me Thomas, ma'am," replied the applicant.

"No, we prefer that you be willing to be called by your last name. Otherwise you won't do at all."

"Oh, I'm willing, ma'am, but I don't think the family would like to have a chauffeur called by his first name."

"What is your last name, then?" said his prospective employer, somewhat coldly.

"Darling, ma'am—Thomas Darling"—(Chicago Herald.)

the circumstances. Mr. Fournier d'Albe, at any rate, did not abandon his investigations at the moment of the major's death and three days afterwards he is again seeing visions at the dead man's bedside.

"March 25, 10 a.m.—There seems to be some disturbance in the conditions around Maj. P., but he does not wake to a realization of his new state of consciousness.

"11 a.m.—The sleeping form is drawn back towards earth conditions and becomes more opaque in appearance.

"4 p.m.—I can see two great luminous wings protruding over Maj. P.'s sleeping form, and they appear to be providing protection against some possible danger.

"March 26, 4 p.m.—The wings are still there, full of light and color, red and white, clear orange and royal blue; . . . they seem to prevent the approach of evil influences.

"5 p.m.—Another figure is watching and waiting near Maj. P., who is not fully awake. It seems to be that of a friend who died some time ago. . . . It is curious that I can communicate with this new figure."

"March 25, 2:30 a.m.—There are signs of waking. The guardians (the two figures) return; there is movement of form and color. There will soon be semi-consciousness. I am fully aware of all this, although, physically speaking, I can hear no longer any thing.

"Here we begin to get the dead man's own experience, as alleged to be communicated through his friend. He, in all these stories, suffers for a little while the agony of the mortal who is separated from those he has loved. He knows little of the new home in which he finds himself, and so cannot reveal anything to his friends on earth. Gradually this memory of the earth life fades altogether. There is memory neither of body nor soul, and the man who has passed over does not realize that he ever lived on the earth at all, or that his body has been buried there.

"Such are a spiritualist's claims. I have dealt with this sort of length because of its curious resemblance to the alleged experience of a friend upon the West African coast, but upon its value I pronounce no opinion.

RIPPLING RHYMES.

THREE-CENT STAMPS.

The three-cent stamp is lavender; my aunt admires the hue, although it nearly spavined her, surrendering the two. Its back has costly mullage, and that will make it stick; I have dealt with it for years, a last thing to tick. I'm tired of licking travelers who sell me books and lamps and darning, knitters, ravelers, rather than some stamps. The three-cent stamp is beautiful, much stronger than the two; I feel I'm acting duffish when I buy a few. I send my junk to editors with stamps that I can't give away, and stand of notes to creditors which they send a sigh. The two-cent stamp was hideous, it broke the highbrow's heart; it had effect in our country, and it was a nuisance to quit it, I expect.

WALT MARION.

Time to be Awake.

This country should proceed on the theory that we shall be required to place in Europe not less than five million men. Every departmental office and every congressional bureau should be based on that assumption of strength. If we never have to use it, it shall be that much ahead of the game; if we do have to use it, it will save lives and limbs—we are not preparing for it in an adequate military way.

The people of this country should be "educated" to the realization that we are not a nation of very real things in the way of war and that it cannot be met by half-way measures or by temporizing or by subtleties. As it is now, the country learns that are have more officers than we need, and it is probable that the impression prevails that there is no great difficulty in getting officers of skill and experience as far as the military is concerned.

On the contrary, it is most difficult to acquire officers who are fitted to perform military duties in the field. It is not sufficient to have men who are good at all the positions, with a slight list from which to fill vacancies as they occur. We must have the commissioned personnel far in advance of what we need, and the people should be made to understand that it is prudent and wise to spare no expense in getting the personnel and the material for the military forces that may be required before we can bring Germany to our own terms.

That force should be declared as equal to five million men without hesitation to the end that there may be no surprise and disappointment when it is discovered, as it may be before we are through with dealing with the enemy, that the existing military project is inadequate.

MAGNATE'S SON IN OIL ACTION.

Santa Fe Official Testifies in Local Land Office.

Government Seeks to Withhold Valuable Patents.

Thousands of Acres in Kern County are Involved.

Fred C. Ripley, son of President Ripley of the Santa Fe, and himself head of the company's oil department, was the principal witness for the opposition yesterday, before Register Roche and Receiver Mitchell of the local Land Office, in the government's case to withhold patents to about 2000 acres of alleged oil-bearing land in the Maricopa and Sunset fields.

The witness and his associates own one-half of the area, while W. S. Tevis owns the other half, and the government, through the efforts of Special Agent Gille is seeking to prevent the Western Minerals Company, which is the proprietor of the various interests, from securing patents to the land.

The testimony of Mr. Ripley was that eleven bearing oil wells have been sunk by the various operators in the land involved, in the suit but that after the discovery had been made of their bearing qualities, they were sealed up, and patent applied for.

The allegations of the government include the activities of "dummy" operators and entrustment in a number of instances, but these allegations are strenuously denied by the witness. The work of developing the

land had been carried on in a legitimate way, it appears.

It is also a charge of the government that the land was withdrawn from all forms of agricultural entry, and classed as mineral land by special agents of the Department of the Interior.

After the closing of the hearing here the testimony will be taken at Lancaster and other points, and then the transcript of the evidence will be submitted to Register Roche and Receiver Mitchell for a determination of the question of whether or not patent ought to issue under the circumstances. It is one of the contentions of the government that the land is worth more than \$1,000,000.

HELD TO ANSWER.

Edward Holt, who is charged with violating the postal laws in sending an improper letter to C. White Mortimer, the British Vice-Consul here, was given his preliminary hearing by United States Commissioner Hammack yesterday, and held in \$1000 bond for a further hearing on the charge.

The course of the hearing that his name is not Holt at all, but Davies. He served two years in the penitentiary some years ago, for setting fire to the Santa Ana fall.
